

High-Point Rendel
International project consultants

Delivering success

High-Point Rendel is an international project consultancy firm that provides commercial, technical and management solutions. We work with our clients to address collective issues, resolve risk related project challenges and deliver optimum results.

Governments, major corporations, international contractors, banks and lawyers from all over the world call on us to provide independent, objective and experienced advice for major engineering, procurement and construction projects.

With our unique combination of commercial, contractual, technical and management skills and deep industry expertise, we are a trusted adviser to our clients, solving critical and challenging problems and bringing clarity and certainty to projects.

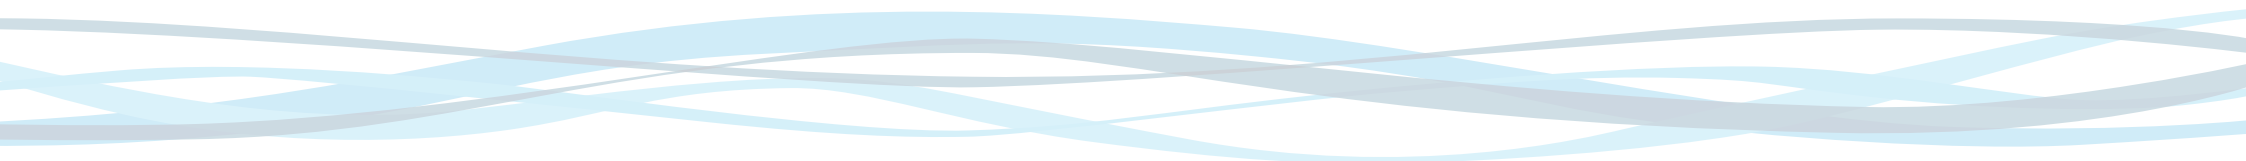

Our vision

To be the trusted, first choice consultant for clients with critical project challenges that are under pressure to deliver results.

Our mission

To combine our unique problem-solving approach with deep commercial, contractual, technical and management knowledge to help clients achieve success in their mission-critical activities.
